

POSITION OPENING

Northland Communications puts your career in your hands with our optional training program. We are a nationally-ranked, telecommunications company specializing in providing a variety of quality communications services that meet the needs of consumers and businesses located in small cities and towns. We are seeking a team-oriented leader to fill the position of:

FIELD SUPERVISOR

This position reports to the Plant Operations Manager. Responsibilities are to:

- Lead and supervise the routing and performance of quality work of installers, customer service technicians, and system technicians,
- Oversight of Northland's Career Development Program (NCD) and safety programs,
- Perform all system and head end testing as required by the FCC and Northland's Quality Assurance program,
- Operate all test equipment related to cable television,
- Perform system sweep response tests and preventative maintenance as required
- Maintain technical portion of FCC public inspection files;

A minimum of three years of related CATV experience required. Completion of the NCTI System Technician, various management courses and previous supervisory experience preferred. Candidate must possess a clean driving record and a valid driver's license.

Northland offers an exciting benefits package including subsidized employee and dependent medical and dental insurance, 401(k), life insurance, vacation, holiday and sick pay and educational assistance.
